- JavaScript
- Ajax
- SQL
- XML
- JSON
- Tomcat
- Hibernate
- Kotlin - basic
- React Native - basic

I am motivated and excited in facing new challenges and tasks, I like working in complex projects with the goal of improving and learning.

I am open to new experiences and I show an excellent ability to adapt, I also think that the success of a project comes from collaboration, professionalism and good relationship among the members of a team.

Summary

Computer Engineering Student at Alma Mater Studiorum - Università di Bologna (Italy), I've done a 3 months internship working full time as an Android Developer for a Startup called Beeline in London from 23/02/2017 to 23/05/2017

From July to November 2017 I've done by myself an Android app for a virtual tour guide of Bologna.

In July 2016 I've learned by myself Android development with Android Studio and I made my very first Android app: it was a simple compass app pointing north with a nice user interface and some nice features.

I've been working in my father's bakery since April 2014 and I made by myself the website of the bakery.

While I was in London I've been to some tech events: 3 Londroid (Android Developer meetups in London), a Kotlin event and the Google I/O extended 2017 at Google Campus in London, and I've been to several tech events in Bologna too.

I've always loved computer and technology and I've been writing articles about computers and technology from September 2016 to February 2018.

Professional Experience

Jul 2017 - **Android Developer**
Nov 2017 **Visitup Bologna, Bologna (Italy)**

www.visitupbologna.com

- Developing the Android app of Visitup Bologna.
<https://play.google.com/store/apps/details?id=com.visitup.visitup&hl=it>

Feb 2017 - **Android Developer (Internship)**
May 2017 **Beeline, London (UK)**

www.beeline.co

- Designing, implementing and documenting improvements to the Beeline Android app, including bug fixing and implementing new social, on-boarding and other features.
- Use of Android Studio, Git, GitHub, Firebase, RxJava, ButterKnife and Dagger
- Test with Travis CI.
- Programming in Java.
- Prototyping design with Marvel.
- Design & implementation of prototype Android and iOS app in React Native

Sep 2017 - **Columnist**
Feb 2018 **Smart vs Phone**

www.smartvsphone.it

- Writing articles about new technologies and computers.

Sep 2016 - **Columnist**
Sep 2017 **HwGadget**

www.hwgadget.com

- Writing articles about new technologies and computers.
Mine [here](#).

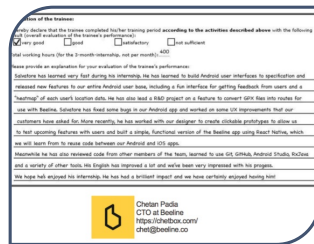

Education

Sep 2014 - **Computer Engineering**
Present **Alma Mater Studiorum - Università di Bologna, Bologna (Italy)**

Sep 2013 - **Political Economy**
Jan 2014 **Alma Mater Studiorum - Università di Bologna, Bologna (Italy)**
Left for Computer Engineering

Sep 2008 - **Math and Science High School**
Jul 2013 **Liceo Scientifico Enrico Fermi, Bologna (Italy)**
